Mr. Murali Vallath
Oracle Technology User Group

Dear Murali,

I am very pleased to learn of the progress that you made in establishing an Oracle Technology User Group in India.

We welcome your efforts to collect Oracle Technology Users across India and establish a forum to meet and discuss how you can put Oracle's Technology to its best use. As you must be aware, such user groups operate across the world to the great benefit of their members.

We wish you well in your efforts and look forward to supporting the Group in whatever way we can.

Kind regards,,
